One of the finest improvements in the city will be the re-building of the Lafayette Hotel. The whole of the back of the house is already being torn down, and the front will shortly be built up. The stores will be just half as large as they are now, and, as half as large as they are now, and, as the Important has a very large stock on hand, they will not have half room enough for their goods and in order to prevent them from being damaged by dirt and dust, they have decided to sell all their Spring goods at less than cost, and others, such as cottons, tablelinen, etc., at exact cost. We advise all to call at the Important and convince themselves of the great bargains. Such bargains they can never get again, and in order to prevent a great rush, we advise all to call early and take advantage of the building of the Lafayette Hotel.

The auction sales of the Santa Gertrudes lands fixed for the 19th, 20th and 21st of the month have been unavoidably postponed in consequence of the ilness of the survey and the managing agent Mr. Edward McLain. The postponement contemplates the sale of the property on the 26th, 27th and 28th of May. *apr17:td

CITY AND COUNTY OFFICIAL PAPER.

WEDNESDAY,..... APRIL 28, 1875

Politics makes strange bedfellows An exchange says the Bulletin is

making a gallant fight for the De-IT is probable that Governor PA CHECO will be a candidate for Congress from the Fourth Congressional District on the Republican ticket. The Governor is a worthy gentleman

and very popular with the people, but

we doubt if even his great popularity

HAMMOND, the revivalist, is filling number of persons brought before the Insanity Commissioners since the Reverend gentleman left the city. His madness in locating near the Insane Asylum appears to have some method in it.

THE Sacramento Record - Union refers to interior journals as "whiffets," by which it means to characterize them as little dogs. Well, when it comes to considering the newspaper profession from a canine standpoint, we have no hesitation in saying that we had rather be a free and independent "whiffet" than a collared and chained cur.

Ancient Use of Gold and Silver.

That the ancients used gold and sil ver occasionally in trafic is correct. but they used other articles at the same time. It was a general system of barter among them, and changes of raiment had as fixed a value as gold and silver. Gold and silver was used more for ornament than for a medium of exchange. Their persons and the public buildings were largely ornamented with these metals, and when called on, the whole nation would not hesitate to contribute all they had of these metals to make a calf.

More Slander.

The Kern county Courier of April

It is gratifying to see that so influential and leading a journal as the Record-Union is ex-esing the fraudulent colonization schemes that are gotten up in the Southern part of the State. No special instance is alluded to, but the Lompoc and Centinela schemes are clearly indicated. We are acquainted with both these tracts, and when such lands are sold at high prices to improve the property of the second state of the second sec these tracts, and when such lands are sold at high prices to immigrants on the representation that they are productive it must in time create a reaction not only against Southern California but the entire State. It is exasperating and sad as exasperating to see the immigrant swindled not only of his purchase money but all that he subsequently invests in cultivation and improvement. It is the duty of the leading papers of the State to expose all schemes of this kind gotten up in localities where it is known that neither the advantage of irrigation, nor the arabic land to apply it exists, if it did.

We publish this passals to chem our

people who their friend are. Nothing could have astonished us more than finding this paragraph in that paper; and we blushed with very shame for the editor when we read, "We are acquainted with these tracts, etc.," and the statement that followed. We are satisfied the editor never put foot on the Centinela Rancho in his life. and therefore knows nothing under heavens about it, and is, of course, guilty of willful misrepresentation. This is the most charitable construction we can put on the matter. For if he had ever visited that ranch and looked over it, he would have known that his statement in regard to the quality of the land was false in the extreme. A more beautiful and fertile body of land cannot be found on the Pacific Coast. The purchasers too have every guarantee that men can have, that they will receive a perfect and undisputed title the moment the land is paid for. If they wish to pay for their land to-morrow they can get a guaranteed title backed by millions of dollars. But for the comfort of both the Courier editor and Sacramento Union, we will just state that not one ocratic candidate for Mayor.— Alta, foot of the Centinals man and the 25th inst. foot of the Centinela was purchased by the "poor emigrants," but by men who were well acquainted with the ranch, having lived here many years. They knew it was selling below its real value, and bought it either to sell again or keep, as they please. We are informed that the same was the case at the Lompoc sale. Will this fact house and great savings over the old compose those benevolent gentlemen at Bakersfield and Sacramento? We may as well state that such slanderous statements in regard to a people and

out of any country.

fornia and the people, indicates a ma-

licious treachery that ought to fright-

Immigration. It is the opinion of gentlemen familiar with the topography of our State-with its valleys, plains, glades and foothills-that California-town and country-is capable of supporting ten millions of people; that her agricultural, commercial and mineral interests will afford employment for a population at least fifteen times greater than we now possess. much needed for a speedy development of our vast resources-the little-great journals of San Francisco-the selfstyled metropolitan press-is beginning to discourage immigration by sending forth editorials expressing fear that we already have too many people here. Such articles are a libel on our State and an insult to those whose labor and industry have made California what she is. There are millions of acres of rich soil in this State yet untouched by the husbandman's plowshare. The agricultural products of our valleys are as yet nothing to what they will be when our population is three or five times greater than it now is. We want thousands, millions of people with strong arms and steady hands and determined will carry him through on that ticket. minds-people who believe that labor is honorable and are willing to labor for the reward which labor always a ten days' engagement at Stockton. bestows upon its votaries. When the The San Francisco police say there San Francisco press asserts that there has been a material decrease in the is no room for such people here, it manifests a degree of ignorance of which the weakest interior journal would feel ashamed.

They are classed as follows: 1st, worked metals, such as cutlery, etc.; 2d, hardware; 3d, musical instruments and cabinet ware; 4th, wooden ware; 5th, philosophical, 8th, minerals, fossils, birds, etc. The awards range from five to twenty-five dollars. Marine Di-aster. NEW ORLEANS, April 23d,—The steamboats, John Kyle and Charles Bodman, were burned to-day at the foot of Poydras street. The fire orignated in the blacksmith shop of the Kyle, and spread with such rapidity that the cabin was in flames in less than five minutes after the alarm. She was cut loose and drifted upstream, there being an eddy at the place where she was lying. The Exporter and Bodman were also cut ioose, and the burning vessel drifted country as have repeatedly been made fire. The people on board seeing no other refuge, jumped on board the Bodman, which a moment later also caught fire, and was soon enveloped in flames, and the three burning boats en not only emigrants but old citizens | drifted into the current. The people on board the last two jumped overboard, and though some were saved, the larger part it is believed, were lost. The number is variously estimated at from 20 to 100. On one of the boats was an excursion party from Cincinnati or Pittsburgh, and it is feared that many of them are lost. Loss, \$180,000, all supposed to be insured.

CITY AND COUNTY OFFICIAL PAPER.

WEDNESDAY,.....APRIL 28, 1875. GOLD REPORT. SAN FRANCISCO, April 27.

Gold; 1154. Greenbacks-Buying, 871/2; selling, 88 LOCAL BREVITIES.

Eighty-six passengers left by rail esterday afternoon for Wilmington. Dwellings are in demand at good rents-a sure sign of prosperity. Insure your life by coming to Los Angeles for your health.

The absorbing question-was it fog, or grog, that caused the loss of the Ventura? The Orizaba will leave for San

Francisco sometime to-morrow. The Ancon went up yesterday. Go to the sale of Park Square property to-day. There will be some bar-gains secured.

It is reported that the picnic of the Irish Literary and Social Club netted the Society somewhat over \$300.

We publish this morning the card of J. W. Stump, attorney at law, whose many friends will be pleased to meet him in a new role. Donations of clothing for the sufferers

by the Ventura disaster, can be left at the United States Hotel and will be thankfully received. · The Main street horse railway is be-

ing built rapidly and will be a great convenience to the people in the vicinity of that street. Mr. Joseph Myers, formerly of Armstrong county, Pennsylvania, and

is prospecting for the slippery fluid in this vicinity. We were wrong in our statement of yesterday in saying that the Ventura was an iron ship. Isn't there some other reason that can be assigned for the variation of that com-

The annual meeting of the Grange Co-operative Company will be held on the 4th of May for the election of a new Board of Directors and the transaction of other important business.

The steamer San Luis arrived at San Pedro yesterday. There was m rchandise for this place but no passengers, it being exclusively a freight boat.

It was a dull shipping day for Los

Angeles yesterday, there being only Francisco. Picnics to Santa Monica beach are becoming quite popular. A party

returned early. By the end of this week most of the oranges in this valley will have been picked and shipped to San Francisco. Shippers have been delayed, owing to the difficulty of hiring reliable pick-

We are glad to see that Mr. George B. Davis, of the Alden Fruit Drying Company, is on the streets again after his severe prostration from a relapse into typhoid fever. He seems re-turned from the dead.

Elegant villa sites, beautified with vineyards and orange groves, situated in the San Gabriel fruit belt, are offered for sale by Wilson & Shorb, in small and convenient tracts. Apply to C. Cabot, Temple Block, or to Wil-son & Shorb, at Lake Vineyard.

Mr. Jacob Steinbach and family, late of Leavenworth, Kansas, are visiting us with the intention of locating. Mr. Steinbach was one of the unlucky Ventura's passengers, and lost all his baggage, but is not disgusted with all California in consequence.

The Grand Jury is in session, to the terror of evil-doers. The criminals were arraigned before them on Monday. It is hard to tell when their la-bor will be completed, as many legal points arise continually, and it takes the District Attorney considerable time to settle the difficulty.

Our distinguished visitor, Past Grand Master Fox, of San Francisco, was cordially received last evening by Orange Grove Encampment at the Odd Fellows' Hall. It was a generous interchange of kindly sentiment, pleasing to the members and beneficial

The Mutual Aid Association yesterday levied an assessment of three dollars per member on the death of E. K. Dunlap of Tulare county, who died a few weeks since, leaving a dependent family. The assessment is due immediately and delinquent in twenty days. The association ordered one-fourth of the benefit be paid immediately.

Mr. J. D. Dorlan will open on Monday, May 3d, a select school for male and female pupils. Mr. Dorlan desires to state that his aim will be to secure the thorough and rapid progress of his pupils, giving special attention to the moral, as well as intellectual training, of those under his charge. Full particulars and terms

Lost Through Bad Management.

It is now announced officially, that none of the passengers baggage on the Ventura will be saved. This will strike a severe blow to many who had a great portion of all their worldly during the night of the 20th, or the following day. Mr. Wm. F. Kellett, one of the unfortunate passengers, called at our office yesterday, and stated that, on the morning of the 21st, two hours were wasted in an attempt to rig a tackle for the transfer of provisions to the shore, and after this had been abandoned, a boat was sent out and brought the edibles to land in a few minutes. There seemed to be no system, no intelligent management of affairs, and no considerable effort put forth, either for the ac-comodation of the passengers or the rescuing of their goods, or other val-uables, on board the wreck. Grand Italian Opera.

To-night will be presented at Turner Hall, Donizetta's famous opera, Don Pasquale, by the Italian Lyric Company. Every preparation has been made by the manager to put Don Pasquale on the stage in a highly creditable manner, and none of our music lovers should fail to be present. The rehearsals of the troupe convince us that the presentation of the far-famed opera will be a musical success alike creditable to the singers and gratifycreditable to the singers and gratifying to the audience. The following is the caste: Don Pasquale, Sr. Marra; Dottore Malatesta, Mme. Franzini; Norina, Mme. Reiffarth; Ernesto, Sr. Risoluti; Notaro, Sr. Labrunie. The music will be under the direction of Prof. Schad; stage manager, Sr. Labrunie. With some of these artists, Los Angeles has a pleasing acquaintance. Sr. Marra and Mme. Franzini sang on the occasion of Madame Arareputed to be an experienced oil man, sang on the occasion of Madame Arabella Goddard's visit to our city and proved themselves accomplished musicians and cultivated vocalists. Mme. Reiffarth has sang to our people at different times and always acquitted herself with credit. The other members of the troupe are, we are assured, thorough musicians and singers. Go early and secure your seat at the Hotel des Princes, Lewin's music store or Turn-Verein Hall.

Park Square.

The sale of the Park Square property pened yesterday with the most satisfactory results to all concerned. Of the 64 lots placed on the market, 25 193 boxes of lemons and oranges and were sold, aggregating \$4,143. The 54 bales of wool sent by rail to San names of purchasers, numbers of lots and prices paid are as follows:

W. H. J. Brooks . went down yesterday, but the atmosphere was disagreeably cool and they B. T. Luttreil.. M. Thomas .. W. H. J. Brooks Chamberlain John Vijar... John Vejar...

Thirty-nine lots are still to be disposed of, and the sale will be continued on the grounds this morning. Considering the location and general advantages, this must be acknowledged among the most desirable residence property in the city. Besides, the lots are going cheap and all those on the alert should not fail to attend the sale to-day.

Spanish Items.

Translated for the HERALD from La Cronica Last Saturday at 7 P. M. were united in the holy bonds of matrimony, Don Juvencio Valenzuela and Miss Mar-

garita Reyes, both of this city. Not a single death has been registered on the books of the Catholic Church of this city during the past week and but one marriage and six baptisms.

Mr. James Kays has lately been confined to his room, suffering an attack of the measles. We are happy to learn of his convalescence and hope to see him soon attending to his duties. Two Catholic priests left this city a few days ago for San Bernardino to assist in the ceremony of removing the remains of Mr. Æneas Quinn from the cemetery to the monument just finished near the church. The widow of Mr. Quinn provided the funds for the erection of the church.

The Wealth of Alaska.

In the purchase of Alaska the Government obtained a bonanza, so far as seal fishing and coal mining are concerned, but its wealth is controlled by a great portion of all their worldly goods on the ill-fated steamer, and more so, as many of them consider that the loss need not have been sustained, if proper efforts had been put forth to save the baggage at the outstart. According to our account of the disaster, published last Sunday morning, no attempt was made to secure any of the effects from the steamer any of the effects from the steamer and desired to the monopoly and the steamer of California should move in the matter and agitate this question on behalf ter and agitate this question on behalf of the people. We gladly publish the following proceedings:

At a regular meeting of Compton Grange, held April 10th, 1875, the fol-lowing preamble and resolutions were

WHEREAS, The Government of the United States has acquired the Territory of Alaska as the common prop-erty of the whole people and paid for the same out of the common treasury-

wealth of said territory; and WHEREAS, Our Government utterly disregarded our said rights as citizens of the United States, and especially ignoring our interests as citizens of California, has created a monopoly of the seal fisheries of certain islands adjacent to and forming a part of said territory by leasing the same for a term of years to a private corporation by the terms of which lease all persons are practically excluded from said ter-

ritory; and whereas, The inhabitants of said islands and the mainland of Alaska have represented to the Government and the people of the United States that they are practically reduced to a state of abject slavery by the employes of said private corporation and the United States officials resident among them; therefore

The Tustin Country.

There is hardly a day that we do not receive some cheering intelligence from this favored part of Los Angeles county. Everything is as green around there, and crops as promising, as if they had a Spring shower every week. No signs of the recent cold snap are visible. This certainly, is the most desirable soil we ever saw, and the country will soon be densely set-
